I am sending this message again because after 7 business days, original message was sent on December 22, 2015, I still have not heard back about the 15 days to file an appeal. Please see message below.

Also please send the formal rules on how an appeal will be handled.

I wanted to inform you that I will be appealing this reports findings

This report states I have "15 business days to file appeal" 15 days would be January 20 not January 15. Please make that correction in writing and please reissue.

I am also requesting formation that was collected but never given to me

- I need all notes on ALL the people interviewed, I was given the impression there were more people interviewed than what appears here.
- I need all electronic communications you have between me and Lyndsey this includes but not limited to emails, text, Facebook messaging, etc. I was not given these message to review
- I need all copies of the notes, pictures that you have in you have in your possession
- Also I told you about a picture of me taken of me on April 24, 2015, the picture was taken at the Golden Flashes Auction, the picture was sent to Lyndsey then she sent it to Beth Lott. I want to know who took the picture and why was it important to Lyndsey that I was at the auction. (I knew when I bought the ticket she was not going)
- I would like to know why my relationship with the gymnastics team had anything to do with the case between Lyndsey and me. I asked but never got an answer during the interview.
